

MANDATORY REQUIREMENTS
to the participants of the international exhibition-fair
"Uzbek Jewellery Fair-2023"

Exhibitors, residents of the Republic of Uzbekistan, must, without fail, have a permit document for the type of activity being carried out.

Jewelry is sold only to individuals and exclusively in the national currency of the Republic of Uzbekistan.

I. Jewelry manufacturers, residents of the Republic of Uzbekistan

1. Jewelry manufacturers have the right to exhibit and sell only products of their own production.

2. All products must be affixed (by impact or laser method) with the personal brand of the manufacturer and the mark of the sample of the established sample or the personal brand of the manufacturer and the state hallmark.

3. Products to be sold must have sealed labels indicating:

name of the manufacturer;

product name;

vendor code;

name and sample of the precious metal;

net weight of products in grams for weight products;

selling price per gram for weight products;

name of insert material;

the type and characteristics of the inserts, including the processing method that changed the quality, color and cost characteristics of the gemstone.

When using materials of artificial origin with the characteristics (properties) of precious stones as inserts, the labels must indicate the information that this stone is artificially grown.

4. Legal entities sell jewelry using cash registers, payment terminals registered with the state tax authorities.

5. Individual entrepreneurs sell jewelry with the obligatory issuance of a receipt of the established form containing information about the passport data of the buyer, the name of the product, its mass, the name of the precious metal, the sample of the precious metal and the cost of the product, the date of sale and the signatures of the persons who carried out the sale and purchase.

II. Business entities engaged in the sale of jewelry, residents of the Republic of Uzbekistan

1. All jewelry made of precious metals and precious stones produced on the territory of the Republic of Uzbekistan must be affixed (by impact or laser method) with a personal brand of the manufacturer and a sample mark of the established sample or a personal brand of the manufacturer and the state hallmark.

2. Jewelry made of precious metals and precious stones imported for commercial purposes into the territory of the Republic of Uzbekistan (foreign-made items) must have distinct imprints of assay marks of assay chambers of foreign states in the metric or carat system of assays or other signs indicating the sample of the product and the state hallmark of the Republic of Uzbekistan applied by impact or laser method.

3. Realized jewelry made of precious metals and precious stones must have sealed labels indicating:

name of the manufacturer;

product name;

vendor code;

name and sample of the precious metal;

net weight of products in grams for weight products;

selling price per gram for weight products;

name of insert material;

the type and characteristics of the inserts, including the processing method that changed the quality, color and cost characteristics of the gemstone.

When using materials of artificial origin with the characteristics (properties) of precious stones as inserts, the labels must indicate the information that this stone is artificially grown.

4. The sale of jewelry is carried out exclusively with the use of cash registers, payment terminals registered with the state tax service.

5. Cut (unmounted) gems (over 0.3 carats) to be sold must have individual packaging, as well as an importer's certificate for a cut gem.

III. Business entities engaged in the refining of precious metals, residents of the Republic of Uzbekistan

1. Legal entities licensed to carry out activities for the refining of precious metals have the right to sell measured ingots of precious metals of their own production, if they have an appropriate certificate.

2. Realization of measured ingots is carried out exclusively with the use of cash registers, payment terminals registered with the state tax authorities.

IV. Business entities engaged in the production of jewelry, the sale of jewelry, non-residents of the Republic of Uzbekistan

smoldering imprints of assay marks of assay chambers of foreign countries in the metric or carat system of samples or other signs indicating the sample of the product.

2. Realized jewelry made of precious metals and precious stones must have sealed labels indicating:

name of the country and organization-manufacturer;

product name;

article (if any);

name and sample of the precious metal;

net weight of the product in grams;

name of insert material;

the type and characteristics of the inserts, including the processing method that changed the quality, color and cost characteristics of the gemstone.

When using materials of artificial origin with the characteristics (properties) of precious stones as inserts, the labels must indicate the information that this stone is artificially grown.

3. The sale of jewelry is carried out using a receipt of the established form containing information about the passport data of the buyer, the name of the product, its mass, the name of the precious metal, the sample of the precious metal and the cost of the product, the date of sale and the signatures of the persons who carried out the sale and purchase.

4. Cut (unmounted) gems (over 0.3 carats) to be sold must have individual packaging, as well as an importer's certificate for a cut gem.

5. The fact of the sale of the product is confirmed by the presence on the receipt of the seal of the Association "Uzbekzargarsanoati".

The receipt with the seal of the Association "Uzbekzargarsanoati" is the basis for the subsequent conversion into cash foreign currency of funds received from the sale of jewelry at the exhibition.
